

Mortgage Document Assistant

Standard Operating Procedure (SOP)

Retail Lending Operations

1. Purpose

This SOP explains how bank employees use the Mortgage Document Assistant AI platform to:

- Upload borrower documents (form 1003 or Uniform Residential Loan Application)
- Generate AI summaries
- Run compliance checks
- Draft internal communications
- Generate borrower emails
- Ask questions about loan files

The system helps employees process mortgage applications faster while maintaining human review and compliance oversight.

2. Important Guidelines

- AI assists employees but does not make lending decisions.
- All AI-generated content must be reviewed before use.
- Never upload incomplete or incorrect documents.
- Never send AI-generated emails without human review.
- Compliance flags must always be investigated manually.
- Do not include SSNs or sensitive borrower data in emails or notes.

3. Supported Workflows

Workflow	Purpose
Document Summarization	Creates a loan officer brief from uploaded documents
Compliance Check	Reviews files for DTI, LTV, documentation, and risk flags
Internal Memo	Drafts professional internal communications
Customer Email	Creates borrower-facing email drafts
Document Q&A	Allows staff to ask questions about uploaded loan files

Workflow	Purpose
History Dashboard	Stores processed documents and reports

4. Workflow 1: Upload and Summarize Documents

Steps

1. Open the Mortgage Document Assistant AI platform.
2. Select “Summarize” from the left navigation menu.
3. Upload the borrower document or mortgage file.
4. Click “Generate Brief.”
5. Review the generated summary carefully.
6. Verify:
 - Borrower information
 - Income details
 - Employment information
 - Missing documents
 - AI recommendations
7. Edit or correct the summary if needed.
8. Save or copy the final version into the loan system.

Summarize Document
Upload a mortgage application (PDF or TXT) and receive a structured loan officer brief.

UPLOAD DOCUMENT

Drop file here or click to browse
Supports PDF and TXT files

Generate Brief

Important Notes

- If the summary is incorrect, verify the uploaded document.
- Poor scan quality may produce inaccurate results.
- Ensure PDFs are searchable and not image-only.

5. Workflow 2: Compliance Check

Steps

1. Select “Compliance Check.”
2. Upload the mortgage file.
3. Click “Run Compliance Check.”
4. Review the compliance results table.

The system checks:

- DTI ratio
- LTV ratio
- Required documents
- Employment history
- Credit requirements
- QM Safe Harbor
- Fair lending indicators

Compliance Check
Verify a mortgage document against DTI, LTV, credit score, QM safe harbor, and fair lending rules.

✓ Run Compliance Check

Status Definitions

Status	Meaning
PASS	Rule appears satisfied
NEEDS REVIEW	Manual review required
FAIL	Immediate investigation required

Important Notes

- AI compliance checks are advisory only.
- Employees must manually verify all FAIL results.

- Fair lending flags must immediately be escalated to Compliance.

6. Workflow 3: Internal Communication

Steps

1. Open “Internal Memo.”
2. Select the communication type.
3. Enter:
 - Recipient role
 - Loan reference number
 - Notes/details
4. Click “Draft Memo.”
5. Review and edit before sending.

The screenshot shows a web interface for 'Internal Communication'. At the top, it says 'Internal Communication' and 'Draft a professional internal memo, escalation notice, or advisory in seconds.' Below this is a form titled 'MEMO DETAILS'. The form has three main sections: 'Situation', 'Recipient Role', and 'Additional Details'. The 'Situation' section has a dropdown menu with the selected option 'Missing Documents — Borrower has not submitted required documents'. The 'Recipient Role' section has a text input field with 'Loan Processor'. The 'Loan / File Reference' section has a text input field with 'LOAN-2024-0042'. The 'Additional Details' section has a text area with the text 'Missing: 2023 W-2 and last 2 bank statements. Deadline: April 10.' At the bottom left of the form is a blue button with a document icon and the text 'Draft Memo'.

Common Uses

- Missing documents
- Underwriting escalation
- Approval recommendation
- Rate lock advisory
- Appraisal request

7. Workflow 4: Customer Email

Steps

1. Open “Customer Email.”
2. Enter:
 - Borrower first name
 - Loan officer name
 - Email situation
 - Required documents or actions
3. Select tone:
 - Standard
 - Empathetic
 - Urgent
4. Click “Draft Email.”
5. Review carefully before sending.

Customer Email
Generate a compliant, professional borrower-facing email draft.

EMAIL PARAMETERS

Situation
Conditional approval — income documents needed

Borrower First Name
Michael

Loan Officer Name
James Patel

Tone
Standard — Professional & neutral

Details to Include
Please provide your 2023 W-2 and last 2 pay stubs by April 10.

 Draft Email

Important Notes

- Never promise loan approval.
- Never include SSNs or credit scores.
- All customer communication must follow bank compliance guidelines.

8. Workflow 5: Document Q&A

Steps

1. Open “Document Q&A.”
2. Upload and index the document.
3. Ask questions in plain English.

Example Questions

- What is the borrower's income?
- Are any documents missing?
- What is the down payment amount?
- Are there employment gaps?

Document Q&A
Load a document once and ask unlimited questions. The loaded document also grounds Internal Memo and Customer Email drafts.

LOAD DOCUMENT

Drop file here or click to browse
Supports PDF and TXT files

Load & Index Document

Important Notes

- Answers depend on uploaded document quality.
- AI may occasionally return incomplete answers.
- Staff must verify critical information manually.

9. History Dashboard

The History Dashboard stores:

- Uploaded files
- AI summaries
- Compliance reports
- Indexed documents
- Saved Q&A sessions

Employees can reload previous files without uploading again.

Document History

All documents processed through the assistant. Load any document into Q&A or view saved reports.

10. Escalation Guidelines

Situation	Action
Missing documents	Request additional documents
Incorrect AI summary	Re-upload or manually review
Compliance FAIL	Escalate to underwriting/compliance
Fair lending concern	Immediate Compliance Officer escalation
System issue	Contact IT support

11. Employee Responsibilities

Employees are responsible for:

- Reviewing all AI output
- Maintaining borrower privacy
- Following compliance procedures
- Escalating issues appropriately
- Ensuring communication accuracy

AI is a support tool, not a replacement for employee judgment.
